

**Legal101** is an Intranet portal solution accelerator specifically designed for law firms looking for rapid deployment of a modern mobile-first SharePoint Intranet that helps the firm employees communicate, collaborate and engage closely without the need to build a complex, risky, expensive customized solution.

## Your Firm Intranet to Connect, Communicate and Collaborate

The go-to “mobile-ready” Intranet platform for all employees to experience a productive, stylish collaboration and communication platform, having several features that are quick, easy to use, and with capabilities to tweak and customize based on your firm’s needs.

“KL Software Technologies specializes in delivering innovation with extensibility in mind that easily adapts to current and future needs.”

Murali Krishnan - General Manager - Solutions Engineering,  
at Tata Communications

“CSL has used KLST as both a design and development firm on a number of web development projects. They have consistently met our expectations, and provided expert skills and attractive value – and are now a trusted partner.”

Steven Palmer, CIO - Canada Steamship Lines (CSL)

## Rapid and Relevant Internal Communications

Legal101 Intranet portal accelerates employee productivity, and draws more value out of your investment in SharePoint® and Office 365™ by providing the core workspace functionality needed by your firm, without the complexity, cost and risk associated with a custom-built solution.

*Ready to deliver, right out of the box*

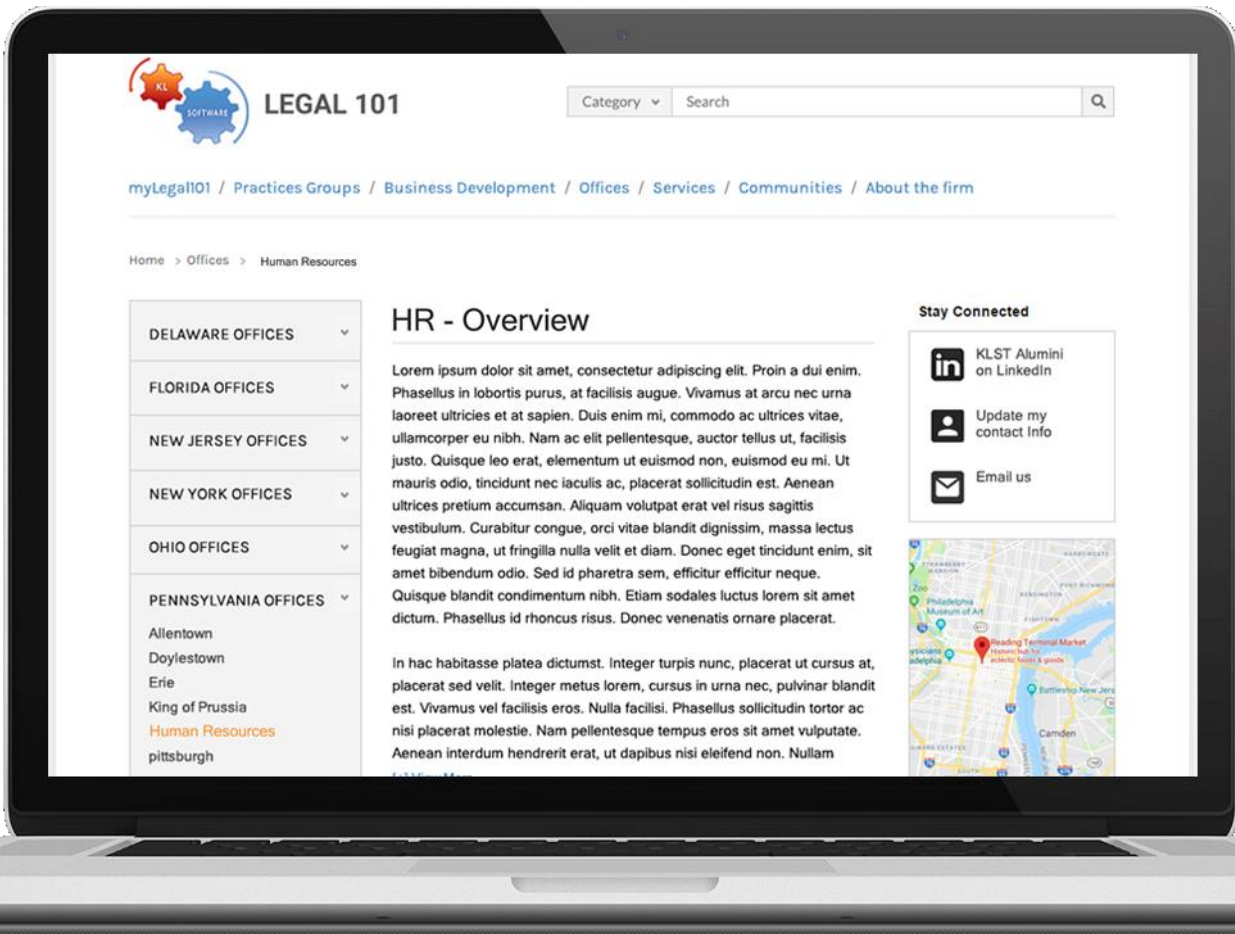

# Department Pages

## Human Resources

Accelerate the pace of business by connecting firm employees with key HR related information, including easy management of corporate Policies and Procedures, Firm Directory, Intuitive Search capabilities to find content and manage HR communications, links, job postings and much more.

The Department Page template can also be used to create other Department pages related to Marketing, Finance, IT etc...

# Practice Pages

## Retail Liability

Practice Page template allows easy creation of Firm Practice pages, which provide quick overview of the selected practice area including the ability to track Key Practice Contacts, Easy Navigation to other Practice pages by Practice Group/Department, Practice Publications, Major Wins, Announcements, Events, Case Studies and much more...

## Office Pages

### Philadelphia

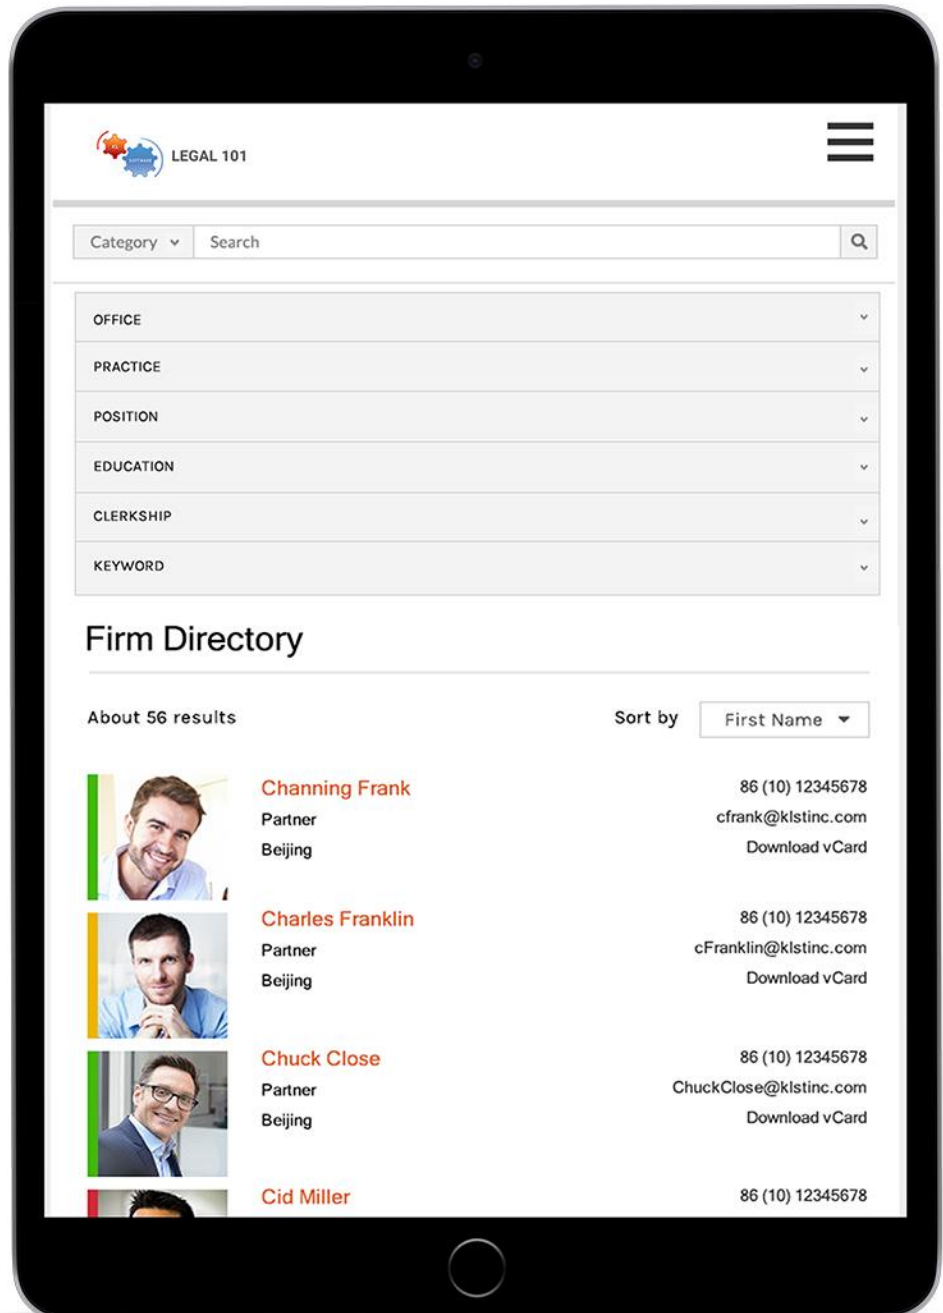

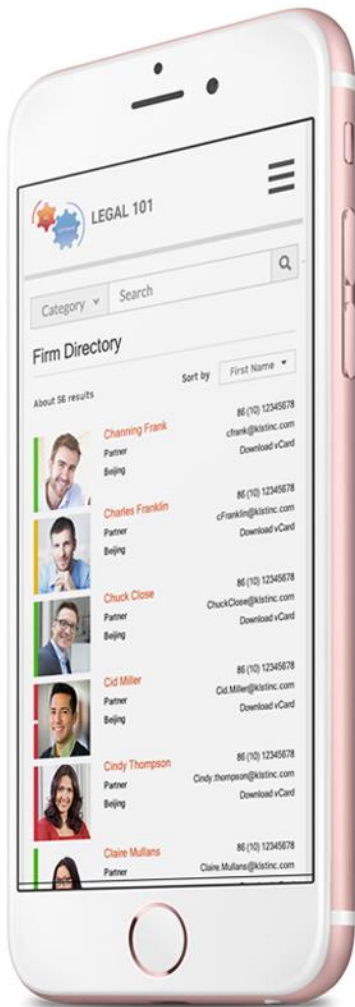

Office Page template allows easy creation of Firm Office pages, which provide quick overview of the selected office as well as provides a visual map of the list of all the available Firm Office Locations highlighted along with detailed directions, an intuitive that can be used by users to browse Firm Offices by country, city and regions, Office News and Announcements, Office Key Contacts, Current Weather and much more...

# Firm Directory

Firm directory provides an expertise location system that helps you quickly find the right people in your firm to effectively tackle each unique Client matter.

# "MOBILE READY" ACCESS FOR PEOPLE ON THE GO

Employees aren't bound to their desktops, which makes it vital to provide mobile access to your intranet. Legal101 delivers optional add-ons native apps for Windows, Android and iOS. The full-featured mobile experience goes beyond the ability to receive content passively, allowing users to dynamically search for what they need. Access to the people directory enables employees to locate their colleagues and connect with them directly. Legal101 brings mobile employees back into the fold and allows them to collaborate anywhere, anytime.

Legal101 can be deployed on Microsoft Office 365 SharePoint Online or SharePoint 2013 / 2016 on-premises
